Experience:

WeWork | Prolific Interactive (Acquired by WeWork), New York, NY
WeWork is revolutionizing the way people and companies work.
Software Engineer   Mar. '19 – Present
- Rebuilding the member experience-messaging platform supporting real-time group messaging, rich and encrypted user media.
- Adding to member experience web component common libraries using React and TypeScript.
- Wrote unit and integration tests for all new member experience web products with 75% code coverage.
- Lead front-end development on WeWork Now, WeWork's platform for on-demand co-working.
- Refactored GraphQL and Apollo application state to improve consistency, testability and reuse of common logic and network requests.

Freelance, New York, NY
Software development consulting   June '18 – Mar. '19
   <u>LedgerX (Product):</u>
- Writing code for a CFTC regulated real-time crypto platform using React, Redux, D3, and Websockets.

   <u>Zeel Networks (Product):</u>
- Worked with VP of Technology to scale front-end as infrastructure for various massage reservation projects using React + Redux.

   <u>Rose Digital (Agency):</u>
- Planned and built core functionality, data flow, system design of hearmyroarnow.org with CEO.

Dexter (rundexter.com), New York, NY
Is the platform for businesses, brands, and people to create meaningful automated conversations.
Software Engineer   May '17 – May '18
- Built analytics view that can search, sort, apply custom column headers, edit, and scroll with infinite scroll.
- Created custom platforms configuration panel giving our users the ability to add persistent menus, greetings and other custom features to their Facebook and Slack bots. 35% of users utilize the feature.
- Implemented first-time user walkthrough, which persists through multiple pages of the application and dynamically moves with the browser size. Increasing first time user bot creation throughout the site.
- Implemented new design for the advanced page, command center and status sidebar features.

Recurse Center, New York, NY
The Recurse Center is a free, self-directed, educational retreat.
Participant   Nov. '16 - Feb. '17
- Worked on a variety of projects, pairing programing and collaborating with other participants.
